| | 13. <u>About this guide</u> |

A desktop organizer for Egyptian solo lawyers: clients, cases, powers of attorney, hearings, tasks, documents, and finances on your computer. Daily use needs no internet or account. This guide documents pre-beta version 0.1.0. All pictured records and files are fictional.

Numbers inside red marks correspond to explanations below each screenshot. Long pages are split into successive screenshots. Open full-size images from HTML or the image folder. Instructions describe the current interface and do not promise future features.

Suggested daily flow: add a client → record a power of attorney if needed → create a case and link clients → add hearings and tasks → attach documents → record fees and payments → create a backup.

Getting started and protecting access

First-run setup

Enter the lawyer's name and a password of at least 12 characters, confirm it, and choose Start using the app. No online account is needed. You can edit the name later. Keep the password safe.

WELCOME TO LEGAL MASR

Set up your office

Your records are kept on this computer and encrypted with your password, with no account or internet needed.

- 1** **Lawyer name ***

Shown on printed reports; you can change it later.
- 2** **Password ***
 Show
At least 12 characters. A short sentence you remember is easier and stronger.
- 3** **Confirm password ***
 Show
- 4** **Get started**

1. Lawyer name: Enter the full name so you can locate the record.
2. Password: Use at least 12 characters and keep it safe.
3. Confirm password: Use at least 12 characters and keep it safe.
4. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Correcting setup details

Leaving required fields empty shows messages beside them. Complete the name, password, and confirmation, then retry. Setup does not create a vault until it succeeds.

The screenshot shows a web form titled "Set up your office" with the subtitle "WELCOME TO LEGAL MASR". Below the title, a message states: "Your records are kept on this computer and encrypted with your password, with no account or internet needed." The form contains three input fields and a "Get started" button. Red circles with numbers 1, 2, and 3 are placed to the left of the "Lawyer name", "Password", and "Confirm password" labels respectively. A red box highlights the "Lawyer name" field and its error message "This field is required." Another red box highlights the "Password" field and its error message "The password is too short; use at least 12 characters." A third red box highlights the "Confirm password" field. A fourth red box highlights the "Get started" button.

WELCOME TO LEGAL MASR

Set up your office

Your records are kept on this computer and encrypted with your password, with no account or internet needed.

1 Lawyer name *

This field is required.

2 Password *

The password is too short; use at least 12 characters.

3 Confirm password *

4 Get started

1. Lawyer name: Enter the full name so you can locate the record.
2. Password: Use at least 12 characters and keep it safe.
3. Confirm password: Use at least 12 characters and keep it safe.
4. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Saving the recovery key

The recovery key appears once after setup. Write it down and store it separately from the computer; do not send it to support. Its value is intentionally hidden in this screenshot. Confirm you saved it, then continue. The key recovers access to this vault; a backup preserves records and files.

IMPORTANT STEP

Save your recovery key

This key is the only way to open your files if you forget your password.

This key is shown only once, and nobody can recover it for you if you lose it.

1 [RECOVERY KEY HIDDEN / مفتاح الاسترداد
مخفي]

Write it on paper and keep it somewhere safe away from this computer.

Do not store it in the same folder as your backups.

The password opens the app every day; the recovery key is for emergencies only.

2 ☐ I have written the key down and stored it safely

Continue to workspace

1. Recovery key: hidden in the guide; save your real key separately from the computer.
2. Saved-key confirmation: continue only after safely storing your key.

Unlocking the vault

Enter your password and choose Unlock. This screen appears after locking or restarting the app. The password visibility control is optional; use it only when nobody can see the screen.

WELCOME BACK

Unlock Legal Masr

Enter your password to open your files.

1

Password

Show

2

Unlock

[I have a recovery key](#)

1. Password: Use at least 12 characters and keep it safe.
2. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Incorrect password

An incorrect password is refused and records remain locked. Check keyboard language and letter case, then retry. If you forgot it, use the recovery-key link.

The screenshot shows a login interface for 'Legal Masr'. At the top, it says 'WELCOME BACK' in a small, grey font. Below that is the title 'Unlock Legal Masr' in a large, bold, black font. Under the title is the instruction 'Enter your password to open your files.' in a grey font. The main form area is outlined with a red border and contains three numbered elements: 1. A password input field with the label 'Password' in bold. The input field is empty, and there is a 'Show' button on the right. 2. A dark green 'Unlock' button. 3. A red error message box with the text 'The password is incorrect. Check it and try again.' in red. Below the error box is a link that says 'I have a recovery key' in a teal color.

1. Password: Use at least 12 characters and keep it safe.
2. Action buttons: save or confirm when ready; Cancel keeps the previous state.
3. Error: correct the stated cause, then retry.

Recovering access

From Unlock, choose the recovery-key link. Enter your saved key and a new password of at least 12 characters, confirm it, and choose Recover access. Back returns to Unlock. Email recovery is unavailable.

The screenshot shows a 'RECOVER ACCESS' form with the following elements:

- Section Header:** 'RECOVER ACCESS' followed by 'Use your recovery key'.
- Instruction:** 'Enter the recovery key you saved during setup, then choose a new password.'
- Field 1 (Annotated 1):** 'Recovery key *' with a text input field. Below it, a note says 'Type it exactly, including letters and dashes.'
- Field 2 (Annotated 2):** 'New password *' with a text input field and a 'Show' button. Below it, a note says 'At least 12 characters. A short sentence you remember is easier and stronger.'
- Field 3 (Annotated 3):** 'Confirm password *' with a text input field and a 'Show' button.
- Action Buttons (Annotated 4):** A large green 'Recover access' button and a blue 'Back to password sign-in' link.

1. Recovery key: review the value or enter the relevant information, then save the form.
2. New password: Use at least 12 characters and keep it safe.
3. Confirm password: Use at least 12 characters and keep it safe.
4. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Workspace and your day

Navigation, search, and locking

Choose a section in the sidebar. Header search finds clients, cases, and powers of attorney. Add provides shortcuts to a new client, case, hearing, or task. Lock immediately hides records; returning requires the password. العربية and English switch interface language.

1. Sections: select one to open its page.
2. Search: type a name or number and choose a result.
3. Add, language, and lock: workspace shortcuts.

Lock app

1. Search: type a name or number and choose a result.

2. Add, language, and lock: workspace shortcuts.

Quick-add menu

Open Add and choose the record type. The app opens the corresponding form; selecting a shortcut alone does not save a record. Add documents from their owning record.

1. Records and actions: open a record or use its adjacent action.

Today dashboard

Start by reviewing today's hearings, due and overdue tasks, and upcoming hearings. Open the linked record for details or to record a decision. Language and date preferences affect presentation; legal dates do not shift with time zones.

- 3. Account: review the totals; amounts are in EGP.

Client documents

Add copies of identification or other documents from this tab. Each attachment here belongs to this client alone.

- 1. Tabs and views: switch to the section you want to review.
- 2. Records and actions: open a record or use its adjacent action.
- 3. Page identity and actions: check the heading before adding or editing.

Editing a client

Choose Edit in the file, change details, and save edits. Cancel closes the form without saving the draft.

The image shows a 'Edit client' form with the following sections and fields:

- Client details**
 - 1** Full name *: Adel Example — fictional client
 - 2** Internal number *: CL-DEMO-001
The client's file number in your office.
 - 3** National ID
14 digits, as on the national ID card.
- Contact and address**
 - 4** Phone number: 01000000000
 - 5** Email: guide@example.invalid
 - 6** Address: Fictional address, Cairo
 - 7** Notes: Fictional illustration record only.
- 8** Action buttons: Save changes (green) and Cancel (white)

1. Full name: Enter the full name so you can locate the record.
2. Internal number: Unique office identifier; separate from the official reference.
3. National ID: review the value or enter the relevant information, then save the form.
4. Phone number: review the value or enter the relevant information, then save the form.
5. Email: review the value or enter the relevant information, then save the form.
6. Address: review the value or enter the relevant information, then save the form.
7. Notes: Optional additional information saved with the record.
8. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Archiving a client

Choose Archive and review the confirmation. Archiving hides the client from the usual list without deleting its files. To restore: show archived, open the file, and choose Restore.

1. Confirmation: read what will happen before proceeding.
2. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Restoring an archived client

Open the archived client and choose Restore to include it in active lists again. Permanent client deletion is unavailable in the interface.

- 1. Tabs and views: switch to the section you want to review.
- 2. Page identity and actions: check the heading before adding or editing.
- 3. Details: review this section and follow the instructions above.
- 4. Details: review this section and follow the instructions above.

Powers of attorney

Power-of-attorney list

Search by power-of-attorney number or details and open it from the row. Show archived includes archived records. Official numbers may repeat; internal sequences must be unique.

3RECORDS

Powers of attorney

Keep each power of attorney with its clients and the lawyers named in it.

Add power of attorney

1

☐ Show archived

Internal number	Power of attorney number	Clients	Status
2POA-DEMO-001	123	Mona Example — fictional client, Adel Example — fictional client	• Active

- 1. Filters: choose what to display; filters do not change records.
- 2. Records and actions: open a record or use its adjacent action.
- 3. Page identity and actions: check the heading before adding or editing.

Adding a power of attorney

Enter the internal sequence, official number, issue date, and notary office. Select clients and add named lawyers and bar numbers as needed. Add lawyer adds an entry to the draft; Save power of attorney saves the full record.

The screenshot shows a web form titled "Add power of attorney" with several input fields and a list of clients. Red boxes and numbers 1 through 7 highlight specific areas of the form:

- 1** Internal number: A text input field.
- 2** Power of attorney number: A text input field.
- 3** Date issued: A date picker with a calendar icon and the format YYYY-MM-DD.
- 4** Lawyers named in the power of attorney: A section containing a "Lawyer name" text input field and a "Bar number" text input field.
- 5** Bar number: A text input field (part of the lawyers section).
- 6** Notes: A large text area for additional information.
- 7** Clients: A section with an "Add a new client" button and a list of three fictional clients: "Adel Example — fictional client · CL-DEMO-001", "Mona Example — fictional client · CL-DEMO-002", and "Unrelated fictional client · CL-DEMO-003".

At the bottom of the form are two buttons: "Save power of attorney" (in a dark green box) and "Cancel".

1. Internal number: Unique office identifier; separate from the official reference.
2. Power of attorney number: review the value or enter the relevant information, then save the form.
3. Date issued: Type day/month/year or year-month-day, then leave the field, or choose a day from the calendar.
4. Lawyer name: Enter the full name so you can locate the record.
5. Bar number: review the value or enter the relevant information, then save the form.
6. Notes: Optional additional information saved with the record.
7. Clients: Choose an existing client; payment payers must belong to the case.

Adding a client inside a power of attorney

Inside the power-of-attorney form, choose Add client. Save the new client; it is automatically selected in the power-of-attorney draft. Saving the client does not also save the power of attorney.

Add power of attorney

Add a new client

Cases with recorded links to this power of attorney appear here. Open the case from the list; creating or changing these links is unavailable in the current interface.

- 1. Tabs and views: switch to the section you want to review.
- 2. Page identity and actions: check the heading before adding or editing.
- 3. Details: review this section and follow the instructions above.

Power-of-attorney documents

Add a copy of the power of attorney from this tab, then open it or edit its description as needed.

- 1. Tabs and views: switch to the section you want to review.
- 2. Records and actions: open a record or use its adjacent action.
- 3. Page identity and actions: check the heading before adding or editing.

Editing a power of attorney

Choose Edit, change the power-of-attorney details, clients, and lawyers, then save. The form derives the year from the issue date.

The screenshot shows a web form titled "Edit power of attorney". It contains several input fields and sections. Red boxes and numbers 1 through 7 highlight the following elements:

- 1** Internal number: A text field containing "POA-DEMO-001".
- 2** Power of attorney number: A text field containing "123".
- 3** Date issued: A date picker showing "2026-09-06" with a calendar icon.
- 4** Lawyers named in the power of attorney: A section with a "Lawyer name" text field.
- 5** Bar number: A text field.
- 6** Notes: A large text area for additional information.
- 7** Clients: A section titled "Clients" with a list of three items: "Adel Example — fictional client · CL-DEMO-001", "Mona Example — fictional client · CL-DEMO-002", and "Unrelated fictional client · CL-DEMO-003". Each item has a checkbox to its left.

Other visible elements include a "Notary office" section with a "Fictional notary office" text field, a "Notes" section with a text field and an "Add lawyer" button, and a "Fictional lawyer" section with a "Remove" button. At the bottom are "Save power of attorney" and "Cancel" buttons.

1. Internal number: Unique office identifier; separate from the official reference.
2. Power of attorney number: review the value or enter the relevant information, then save the form.
3. Date issued: Type day/month/year or year-month-day, then leave the field, or choose a day from the calendar.
4. Lawyer name: Enter the full name so you can locate the record.
5. Bar number: review the value or enter the relevant information, then save the form.
6. Notes: Optional additional information saved with the record.
7. Clients: Choose an existing client; payment payers must belong to the case.

Archiving a power of attorney

Review the confirmation before archiving. To restore it, show archived records in the list, open it, and choose Restore.

1. Confirmation: read what will happen before proceeding.
2. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Restoring an archived power of attorney

Restore returns the power of attorney to the active list. Archiving does not erase its attachments.

- 1. Tabs and views: switch to the section you want to review.
- 2. Page identity and actions: check the heading before adding or editing.
- 3. Details: review this section and follow the instructions above.
- 4. Details: review this section and follow the instructions above.

Editing a case and client relationships

Edit case details, court, status, dates, and subject, then save. Client relationships remain unchanged and cannot be edited in this form. Closing the case does not automatically change hearing or task dates.

The screenshot shows a web form titled "Edit case". It is divided into several sections: "Case details", "Court and dates", and "Subject and notes".

- Case details:** Contains six fields arranged in a 2x3 grid.
 - 1. Internal file number *: Text input with "CASE-DEMO-001".
 - 2. Court case number: Text input with "447".
 - 3. Judicial year: Dropdown menu with "2026".
 - 4. Case type: Dropdown menu with "Civil".
 - 5. Litigation degree: Dropdown menu with "First instance".
 - 6. Status: Dropdown menu with "Active".
- Court and dates:** Contains four fields arranged in a 2x2 grid.
 - 7. Court: Text input with "Fictional court".
 - 8. Circuit: Text input with "Third circuit".
 - 9. Filed on: Date input with "YYYY-MM-DD" and a calendar icon.
 - 10. Concluded on: Date input with "YYYY-MM-DD" and a calendar icon.
- Subject and notes:** Contains two fields.
 - 11. Subject of the case: Text input with "Fictional claim for this guide".
 - 12. Notes: Text input with "All data is fictional."
- Footer:** Contains two buttons: "Save changes" (green) and "Cancel" (white).

Red numbered callouts (1-13) are placed over the form fields to indicate specific points of interest or instructions.

1. Internal file number: Unique office identifier; separate from the official reference.
2. Court case number: Choose the case related to this record.
3. Judicial year: review the value or enter the relevant information, then save the form.
4. Case type: Choose the case related to this record.
5. Litigation degree: review the value or enter the relevant information, then save the form.
6. Status: review the value or enter the relevant information, then save the form.
7. Court: review the value or enter the relevant information, then save the form.
8. Circuit: review the value or enter the relevant information, then save the form.
9. Filed on: review the value or enter the relevant information, then save the form.
10. Concluded on: review the value or enter the relevant information, then save the form.

11. Subject of the case: Choose the case related to this record.
12. Notes: Optional additional information saved with the record.
13. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Adding an opponent

From Clients and opponents, choose Add opponent. Name is required; legal capacity, opponent lawyer, phone, address, and notes are optional. Save to add it to this case.

The image shows a 'Add opponent' form with seven numbered red circles indicating the sequence of input fields and the final action buttons. The form is titled 'Add opponent' and contains the following fields: 1. Opponent name (required), 2. Capacity, 3. Opponent's lawyer, 4. Phone, 5. Address, 6. Notes (optional), and 7. Action buttons: Cancel and Save opponent.

1. Opponent name: Enter the full name so you can locate the record.
2. Capacity: review the value or enter the relevant information, then save the form.
3. Opponent's lawyer: review the value or enter the relevant information, then save the form.
4. Phone: review the value or enter the relevant information, then save the form.
5. Address: review the value or enter the relevant information, then save the form.
6. Notes: Optional additional information saved with the record.
7. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Editing an opponent

Choose Edit beside the opponent, update details, and save. This updates the opponent in this case.

The image shows a 'Edit opponent' form with the following fields and callouts:

- 1** Opponent name: A text input field containing 'Example company — fictional'.
- 2** Capacity: A text input field containing 'Defendant'.
- 3** Opponent's lawyer: A text input field containing 'Fictional opponent lawyer'.
- 4** Phone: An empty text input field.
- 5** Address: An empty text input field.
- 6** Notes: A large text area for additional information.
- 7** Action buttons: A 'Cancel' button and a 'Save opponent' button.

1. Opponent name: Enter the full name so you can locate the record.
2. Capacity: review the value or enter the relevant information, then save the form.
3. Opponent's lawyer: review the value or enter the relevant information, then save the form.
4. Phone: review the value or enter the relevant information, then save the form.
5. Address: review the value or enter the relevant information, then save the form.
6. Notes: Optional additional information saved with the record.
7. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Removing an opponent

Review the confirmation before removing the opponent from the case. Cancel leaves the relationship unchanged.

1. Confirmation: read what will happen before proceeding.
2. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Archived case

Archive in the file header hides the case from ordinary lists. Open the archived file and choose Restore to return it. Archiving is separate from Closed status and does not delete the case.

Task
Review fictional pleading

1. Tabs and views: switch to the section you want to review.
2. Page identity and actions: check the heading before adding or editing.

Adding a hearing

Choose the case and date, then add time, type, location, circuit, required documents, and notes as needed. Save to show the hearing in the agenda and case file.

The screenshot shows a mobile application interface for adding a hearing. The form is titled "Add hearing" and contains several input fields and action buttons. Red circles with numbers 1 through 9 are overlaid on the form to indicate the sequence of steps. Step 1 points to the "Case" dropdown menu. Step 2 points to the "Date" field, which shows "2026-10-06" and a calendar icon. Step 3 points to the "Time (optional)" field, which shows "12:30". Step 4 points to the "Hearing type" field. Step 5 points to the "Court or place" field. Step 6 points to the "Circuit" field. Step 7 points to the "To prepare for the hearing" text area. Step 8 points to the "Notes" text area. Step 9 points to the "Cancel" and "Save hearing" buttons at the bottom.

Add hearing

1 **Case**
Choose a case

2 **Date**
2026-10-06

3 **Time (optional)**
12:30

4 **Hearing type**

7 **To prepare for the hearing**

8 **Notes**

9 **Cancel** **Save hearing**

1. Case: Choose the case related to this record.
2. Date: Type day/month/year or year-month-day, then leave the field, or choose a day from the calendar.
3. Time (optional): review the value or enter the relevant information, then save the form.
4. Hearing type: review the value or enter the relevant information, then save the form.
5. Court or place: review the value or enter the relevant information, then save the form.
6. Circuit: review the value or enter the relevant information, then save the form.
7. To prepare for the hearing: review the value or enter the relevant information, then save the form.
8. Notes: Optional additional information saved with the record.
9. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Editing a hearing

Open hearing details, correct them, and save. Editing a follow-up hearing does not change its previous hearing.

The screenshot shows a web form titled "Edit hearing". It contains several input fields and a text area, each highlighted with a red border and a numbered red circle (1-9) indicating the sequence of steps to edit the hearing. The form is set against a light gray background with some blurred text from the underlying page.

- 1 Case:** A dropdown menu showing "CASE-DEMO-001 — Mona Example — fictional client, Adel Example ...".
- 2 Date:** A text input field containing "2026-10-06" and a calendar icon.
- 3 Time (optional):** A text input field containing "10:30".
- 4 Hearing type:** A text input field containing "Hearing".
- 5 Court or place:** A text input field containing "Fictional court".
- 6 Circuit:** A text input field containing "Third circuit".
- 7 To prepare for the hearing:** A large text area containing "Fictional pleading".
- 8 Notes:** A large text area for additional information.
- 9 Action buttons:** Two buttons at the bottom: "Cancel" and "Save hearing".

1. Case: Choose the case related to this record.
2. Date: Type day/month/year or year-month-day, then leave the field, or choose a day from the calendar.
3. Time (optional): review the value or enter the relevant information, then save the form.
4. Hearing type: review the value or enter the relevant information, then save the form.
5. Court or place: review the value or enter the relevant information, then save the form.
6. Circuit: review the value or enter the relevant information, then save the form.
7. To prepare for the hearing: review the value or enter the relevant information, then save the form.
8. Notes: Optional additional information saved with the record.
9. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Recording a decision and next hearing

Enter the decision and a next-hearing date if one exists, then record the decision. The current hearing completes and the next one is linked to it. Leave the date empty if no next hearing was set; edit the follow-up later as needed.

The screenshot shows a 'Record decision' form with three numbered steps highlighted by red boxes:

- 1** **Hearing decision**: A large text input field for recording the decision.
- 2** **Next hearing date (if postponed)**: A date input field with a placeholder 'YYYY-MM-DD' and a calendar icon.
- 3**: Action buttons at the bottom, including a 'Cancel' button and a 'Record decision' button.

Below the date field, there is a note: 'The hearing's details (place, circuit and preparation) carry over to the next hearing, and you can edit them afterwards.'

1. Hearing decision: review the value or enter the relevant information, then save the form.
2. Next hearing date (if postponed): Type day/month/year or year-month-day, then leave the field, or choose a day from the calendar.
3. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Deleting a hearing

From the day's details, choose Delete hearing and review the confirmation. Cancel to keep it. Deleting a hearing is different from recording its decision.

1. Confirmation: read what will happen before proceeding.
2. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Choosing a date

Type a date such as 03/10/2026 or 2026-10-03, then leave the field, or open the calendar button and choose a day. Arabic digits are accepted. After normalization the field shows year-month-day. The value remains a date without a time zone.

1. Schedule: review dates, links, and preparation details.

Tasks and deadlines

Today's tasks

Choose the relevant tab and filter by case or client as needed. Open a task title to edit it. The checkbox changes completion status; Clear filters removes case/client restrictions.

The screenshot shows a web interface for 'Today's tasks'. At the top, a red box labeled '4' contains the heading 'Tasks and follow-ups' and an 'Add task' button. Below this, a red box labeled '2' contains tabs for 'Today', 'Overdue', 'Upcoming', 'Completed', and 'All'. A red box labeled '1' contains filter dropdowns for 'Case' (set to 'All cases') and 'Client' (set to 'All clients'), along with a 'Clear filters' link. Below the filters, a red box labeled '3' highlights a task card for 'Review fictional pleading' with a checkbox, a date/case reference, and 'Today' and 'Delete' action buttons.

Overdue tasks

Choose the relevant tab and filter by case or client as needed. Open a task title to edit it. The checkbox changes completion status; Clear filters removes case/client restrictions.

The screenshot shows a web interface for managing tasks. At the top, a header bar contains the text 'DAILY WORK' and 'Tasks and follow-ups'. Below this is a sub-header 'Keep follow-ups in date order and tick off what you finish.' and an 'Add task' button. A tab bar below the sub-header has five tabs: 'Today', 'Overdue' (selected), 'Upcoming', 'Completed', and 'All'. Below the tabs is a filter section with two dropdown menus labeled 'Case' and 'Client', both set to 'All cases' and 'All clients' respectively. A 'Clear filters' link is to the right. Below the filter section is a list of tasks. The first task is 'Overdue fictional task' with a date of '05/10/2026'. It has a checkbox on the left and two buttons on the right: 'Overdue' (with a red dot) and 'Delete'. The interface is annotated with four red circles and numbers: 1 points to the filter section, 2 points to the 'Overdue' tab, 3 points to the task row, and 4 points to the 'DAILY WORK' header.

4. Page identity and actions: check the heading before adding or editing.

Adding a task

Enter a title and due date. Optionally link a case or client and add details and notes. There is no priority, employee assignment, or due time; this is a solo-lawyer application.

The screenshot shows a mobile application interface for adding a task. The form is titled "Add task" and contains several input fields and buttons. Red circles with numbers 1 through 7 are placed over specific parts of the form to indicate the steps for adding a task. The form fields are: "Task" (a large text input), "Due date" (a date input showing "2026-10-06" with a calendar icon), "Case" (a dropdown menu with a minus sign and a checkmark), "Client" (a dropdown menu with a minus sign and a checkmark), "Details" (a large text input), "Notes" (a large text input), and "Action buttons" (a "Cancel" button and a "Save task" button).

1. Task: review the value or enter the relevant information, then save the form.
2. Due date: Type day/month/year or year-month-day, then leave the field, or choose a day from the calendar.
3. Case: Choose the case related to this record.
4. Client: Choose an existing client; payment payers must belong to the case.
5. Details: review the value or enter the relevant information, then save the form.
6. Notes: Optional additional information saved with the record.
7. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Editing and completing a task

Open a task, update its details, and save. Complete task or Reopen changes status directly. Completing a task does not require changing its due date.

The screenshot shows a 'Task details' form with the following fields and annotations:

- 1 Task:** A text input field containing 'Review fictional pleading'.
- 2 Due date:** A date input field showing '2026-10-06' with a calendar icon.
- 3 Case:** A dropdown menu showing 'CASE-DEMO-001'.
- 4 Client:** A dropdown menu showing 'Adel Example — fictional client'.
- 5 Details:** A text input field containing 'Prepare a fictional hearing document.'.
- 6 Notes:** A large text input field for additional information.
- 7 Action buttons:** A row containing 'Cancel' and 'Save task' buttons.

Below the form, the status is shown as 'Status: Open Complete task'.

1. Task: review the value or enter the relevant information, then save the form.
2. Due date: Type day/month/year or year-month-day, then leave the field, or choose a day from the calendar.
3. Case: Choose the case related to this record.
4. Client: Choose an existing client; payment payers must belong to the case.
5. Details: review the value or enter the relevant information, then save the form.
6. Notes: Optional additional information saved with the record.
7. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Deleting a task

Choose Delete beside the task and confirm. Cancel keeps it. Use completion rather than deletion when you want to retain the completed-work record.

1. Confirmation: read what will happen before proceeding.
2. Action buttons: save or confirm when ready; Cancel keeps the previous state.

All documents

This is the global document list. Review filename, category, date, and owner. To add a document, open its client, case, or power-of-attorney file. Adding is unavailable from the global list.

2

RECORDS

All documents

Every document saved in your office, with the record it belongs to. To add a document, open the client, case or power of attorney.

1

Saved documents

Legal Masr keeps a copy of every file you add, and includes it in backups.

- 1. Records and actions: open a record or use its adjacent action.
- 2. Page identity and actions: check the heading before adding or editing.

Adding a document copy

From the owner's documents tab, choose Add document, then Choose file. Select a file in the system dialog, add category, description, and date, and save. The app keeps a copy without changing the source. Canceling selection creates no attachment.

The screenshot shows a mobile app interface for adding a document. The form is titled "Add document" and contains several fields and buttons. Red dashed boxes and numbers 1 through 5 highlight specific areas: 1. A red box around the "Category" dropdown menu, which currently shows "Other". 2. A red box around the "Description" text input field. 3. A red box around the "Document date" field, which includes a text input with the placeholder "YYYY-MM-DD" and a calendar icon. 4. A red box around the bottom action buttons: "Cancel" and "Save document". 5. A red box around the top section, which includes a file icon, the filename "fictional.pdf", a description "Legal Masr keeps a copy of the file; the original stays where it is, unchanged.", and a "Choose file" button.

1. Category: review the value or enter the relevant information, then save the form.
2. Description: review the value or enter the relevant information, then save the form.
3. Document date: Type day/month/year or year-month-day, then leave the field, or choose a day from the calendar.
4. Action buttons: save or confirm when ready; Cancel keeps the previous state.
5. File selection: choose a document; the app keeps a managed copy and leaves the original in place.

Editing document metadata

Choose Edit beside a document to change category, description, and document date. This form does not replace file contents. Open uses the appropriate system application; Reveal opens the managed copy's location.

The image shows a modal form titled "Edit document details" with four numbered red circles indicating the sequence of actions:

- 1. Category:** A dropdown menu currently showing "Case papers" with a downward arrow on the right.
- 2. Description:** A text input field containing the text "Fictional document".
- 3. Document date:** A date input field showing "2026-10-06" and a calendar icon on the right.
- 4. Action buttons:** Two buttons at the bottom: a light gray "Cancel" button and a dark green "Save changes" button.

1. Category: review the value or enter the relevant information, then save the form.
2. Description: review the value or enter the relevant information, then save the form.
3. Document date: Type day/month/year or year-month-day, then leave the field, or choose a day from the calendar.
4. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Removing a document

Review the confirmation before removing the managed copy and its metadata. The originally selected source file is not deleted. Cancel keeps the attachment.

1. Confirmation: read what will happen before proceeding.
2. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Document could not be opened

A missing managed file or failed open shows an error. Check file availability and system configuration; do not manually move files inside the app's data folder. Keep backups that include documents.

1. Tabs and views: switch to the section you want to review.
2. Records and actions: open a record or use its adjacent action.
3. Page identity and actions: check the heading before adding or editing.
4. Error: correct the stated cause, then retry.

Fees, payments, and expenses

Payment register

Filter by case and client. With a case selected, payer filtering is limited to its clients. Review payments and the account, and open a transaction to edit it.

Adding a payment

Choose a case and a payer from its linked clients. Enter a positive amount, payment date, method, and notes, then save. Amounts use Egyptian pounds and piastres with exact minor-unit storage.

The screenshot shows a mobile application interface for adding a payment. The form is titled "Add payment" and contains several fields and buttons. Red circles with numbers 1 through 7 are placed over the form to indicate the sequence of steps. Step 1 points to the "Case" dropdown menu, which currently shows "CASE-DEMO-001". Step 2 points to the "Paying client" dropdown menu, which shows "Choose one of the case's clients". Step 3 points to the "Amount (EGP)" text input field. Step 4 points to the "Payment date" field, which shows "2026-10-06" and a calendar icon. Step 5 points to the "Payment method" dropdown menu, which shows a hyphen. Step 6 points to the "Notes" text area. Step 7 points to the "Cancel" and "Save payment" buttons at the bottom of the form.

3. Amount (EGP): Enter a positive EGP amount, with up to two piastre digits.
4. Payment date: Type day/month/year or year-month-day, then leave the field, or choose a day from the calendar.
5. Payment method: review the value or enter the relevant information, then save the form.
6. Notes: Optional additional information saved with the record.
7. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Editing a payment

Open a payment, correct amount, date, method, or notes, and save. The case account updates after saving. The current interface has no payment-delete control.

The screenshot shows a modal form titled "Edit payment" with the following fields and annotations:

- 1** Case: A dropdown menu showing "CASE-DEMO-001".
- 2** Paying client: A dropdown menu showing "Adel Example — fictional client".
- 3** Amount (EGP): A text input field containing "1500.25".
- 4** Payment date: A date picker field showing "2026-10-06" with a calendar icon.
- 5** Payment method: A dropdown menu showing "Cash".
- 6** Notes: A text area containing "Fictional payment".
- 7** Action buttons: A row containing a "Cancel" button and a "Save payment" button.

1. Case: Choose the case related to this record.
2. Paying client: Choose an existing client; payment payers must belong to the case.
3. Amount (EGP): Enter a positive EGP amount, with up to two piastre digits.
4. Payment date: Type day/month/year or year-month-day, then leave the field, or choose a day from the calendar.
5. Payment method: review the value or enter the relevant information, then save the form.
6. Notes: Optional additional information saved with the record.
7. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Adding an expense

Enter a positive amount, date, and expense type. Case and client links are optional. Types are court fees, transport, office supplies, expert fees, and other. Save the transaction.

The screenshot shows a mobile application interface for adding an expense. The form is titled 'Add expense' and includes a sub-header: 'Link the expense to a case or client if relevant, or leave it unlinked for general office expenses.' The form fields are numbered 1 through 7:

- 1. Case: A dropdown menu showing 'CASE-DEMO-001'.
- 2. Client: A dropdown menu showing a hyphen ('—').
- 3. Amount (EGP): An empty text input field.
- 4. Expense date: A date picker showing '2026-10-06' with a calendar icon.
- 5. Expense type: A dropdown menu showing 'Court fees'.
- 6. Notes: A large text area for additional information.
- 7. Action buttons: 'Cancel' and 'Save expense' buttons.

1. Case: Choose the case related to this record.
2. Client: Choose an existing client; payment payers must belong to the case.
3. Amount (EGP): Enter a positive EGP amount, with up to two piastre digits.
4. Expense date: Type day/month/year or year-month-day, then leave the field, or choose a day from the calendar.
5. Expense type: review the value or enter the relevant information, then save the form.
6. Notes: Optional additional information saved with the record.
7. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Editing an expense and its documents

Open an expense to edit details and save. The current interface has no expense attachment-upload or expense-delete control. You can keep case receipts as case documents.

The screenshot shows a modal window titled "Edit expense" with the following fields and annotations:

- 1 Case:** A dropdown menu showing "CASE-DEMO-001".
- 2 Client:** A dropdown menu showing "Adel Example — fictional client".
- 3 Amount (EGP):** A text input field containing "250".
- 4 Expense date:** A date picker field showing "2026-10-06" with a calendar icon.
- 5 Expense type:** A dropdown menu showing "Court fees".
- 6 Notes:** A text area containing "Fictional fee".
- 7 Action buttons:** Two buttons at the bottom: "Cancel" and "Save expense".

1. Case: Choose the case related to this record.
2. Client: Choose an existing client; payment payers must belong to the case.
3. Amount (EGP): Enter a positive EGP amount, with up to two piastre digits.
4. Expense date: Type day/month/year or year-month-day, then leave the field, or choose a day from the calendar.
5. Expense type: review the value or enter the relevant information, then save the form.
6. Notes: Optional additional information saved with the record.
7. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Backup and restore

Backup page

Create a backup now; it is saved in Backups inside application data. Latest backup shows date, size, and advice when stale. Manually copy the archive to safe storage. Automatic backups and changing the destination are unavailable.

1. Page identity and actions: check the heading before adding or editing.
2. Details: review this section and follow the instructions above.

Backup created successfully

Success means the app created and checked the encrypted archive. It includes the database and managed documents. Check the latest timestamp afterward.

1. Page identity and actions: check the heading before adding or editing.
2. Details: review this section and follow the instructions above.

Validating a backup

Choose Validate and select the archive in the system dialog. Success establishes archive structure and content integrity in this vault; it does not establish portability to a new computer.

1. Page identity and actions: check the heading before adding or editing.
2. Details: review this section and follow the instructions above.

Restore confirmation

Restore replaces current state with the snapshot. Make a current backup first. Review the warning and confirm or cancel. There is no restore preview.

1. Confirmation: read what will happen before proceeding.
2. Action buttons: save or confirm when ready; Cancel keeps the previous state.

Corrupt backup refused

An invalid archive is refused and current data remains intact. Choose a valid backup and validate again; do not manually alter the archive contents.

1. Page identity and actions: check the heading before adding or editing.
2. Details: review this section and follow the instructions above.

Lock after restore

Successful restore locks the app. Unlock and verify records and documents as of the snapshot. Changes made afterward are absent from restored state. Restoring into a new vault with only the original password is currently unsupported.

Reminders

Allow notifications and start Legal Masr with your computer to get reminders without opening it.

Start Legal Masr with the computer

You can turn this off at any time.

Reminder notifications

Notifications never show a client name or case details.

Allow notifications

Reminders cannot arrive while the app is fully closed; start it with the computer and leave it running in the background.

Change password

Change the password you use to open the app. Your recovery key stays the same.

Current password

1. Minutes of inactivity before locking: review the value or enter the relevant information, then save the form.
2. Action buttons: save or confirm when ready; Cancel keeps the previous state.
3. Details: review this section and follow the instructions above.

Aggregate usage statistics

Optional and kept on your computer; they contain no names, numbers or legal data and are never sent over the internet.

4Turn on aggregate statistics

Only totals are kept, such as the number of cases or backups.

Your recovery key is your responsibility

Keep the key shown at setup somewhere safe, away from this computer. Nobody can recover your data without it if you forget your password.

1. Current password: Use at least 12 characters and keep it safe.
2. New password: Use at least 12 characters and keep it safe.
3. Confirm password: Use at least 12 characters and keep it safe.
4. Details: review this section and follow the instructions above.

Backups in Settings

Settings contains the same create, validate, and restore tools as the Backup section. Backup setup is not required to finish onboarding.

1. Tabs and views: switch to the section you want to review.
2. Page identity and actions: check the heading before adding or editing.
3. Details: review this section and follow the instructions above.

Privacy and data location

Review storage, document, backup, and network information. The database is encrypted, but managed documents are not individually encrypted; use a protected OS account and disk encryption.

1. Tabs and views: switch to the section you want to review.
2. Page identity and actions: check the heading before adding or editing.
3. Details: review this section and follow the instructions above.

About the app

Review product name, version, application status, and available information links. This application is pre-beta; passing Linux tests does not validate Windows or macOS.

1. Tabs and views: switch to the section you want to review.
2. Page identity and actions: check the heading before adding or editing.
3. Details: review this section and follow the instructions above.

Correcting password confirmation

A mismatch between the new password and confirmation shows a message and does not save the change. Enter matching values; the new password must have at least 12 characters.

Troubleshooting and current limitations

Problem	What to do
Internal number already used	Choose another number; internal identifiers must be unique.
Client or case missing	Clear filters, include archived records, and search by internal number.
Payment payer unavailable	Select the client when creating the case; changing client links afterward is unavailable in the current interface.
Date rejected	Choose it from the calendar or enter a real day/month/year date.
Document file missing	Check the managed copy or restore an intact snapshot in the original vault.
Notification missing	Check OS permission and that the app is running; physical platform validation remains pending.
Corrupt backup	Current data is preserved; try a valid archive.
Forgotten password	Use the recovery key; email/support password recovery is unavailable.

Important limits: the current version cannot restore into an independently initialized vault with only the original password, schedule backups/retention, preview restores, export a complete installation/case, or permanently delete clients/cases. It is a solo-lawyer organizer, not an accounting or multi-user collaboration system.

About this guide

Screenshots come from the real Tauri application on Linux using a temporary fictional vault and actual persistence. Test file selection uses an allowlisted substitute; these screenshots do not validate OS dialogs, installation, or notifications on Windows/macOS. The recovery key is intentionally hidden.
